DESCRIPTION

The project provides for the design, property acquisition, and construction of a 4,500 linear foot urban green trail through the Silver Spring Central Business District (CBD), along the northern side of Wayne Avenue from Fenton Street to the Sligo Creek Hiker-Biker Trail. The proposed trail includes an 8-foot wide bituminous bike path, an adjacent 5-foot wide concrete sidewalk, lighting, and landscaping. The trail will provide access to the Silver Spring Transit Station, via the Metropolitan Branch Trail, and the future Capital Crescent Trail. Between Dale Drive and Cedar Lane, the number of travel lanes on Wayne Avenue will be reduced from four to three and the center lane will be reversible, with parking permitted only on the southern side of Wayne Avenue.

Service Area

Silver Spring. JUSTIFICATION

This project creates an important regional link through Silver Spring to the Park trail system, including the Sligo Creek Hiker-Biker Trail, the future Capital Crescent Trail, and the Metropolitan Branch Trail. All trails will converge at Silver Spring, connecting the Metro Station, the Transit Station, and the CBD to the system of parks and trails as portrayed in the Silver Spring Master Plan.

Plans and Studies

Facility Planning Study Phase I has been completed.

Specific Data

The purpose of this hiker-biker trail is to provide a connection between the Silver Spring Business District and its existing and planned transit options and the Sligo Creek Hiker/Biker Trail.

Cost Change

Not applicable.

STATUS

Preliminary Design Stage.

OTHER

The scope has remained the same. The intergovernmental revenue shown in the funding schedule reflects WSSC's share of utility relocation costs. Project implementation is contingent upon receipt of enhancement funds from MSHA in FY04. Application will be submitted to MSHA in FY03.

FISCAL NOTE

The FY01 State Access 2000 grant provided \$387,000 for this project. In a letter in September 2001, The State withdrew the funds.
